

1.8V Low Power Push-Pull Output Comparator ; 0,Comparator ICs singl 1.8v push/pull comparator, e temp

Manufacturers	Microchip Technology, Inc
Package/Case	SC70-5
Product Type	Comparator ICs
RoHS	Rohs
Lifecycle

General Description

These comparators are optimized for low power, single-supply operation with greater than rail-to-rail input operation. The push-pull output of the MCP6561/2/4 family supports rail-to-rail output swing, and interfaces with TTL/CMOS logic. The output limits supply current surges, and dynamic power consumption while switching. AEC-Q100 Grade 1 qualification is available for this device

Features

Single, Push-Pull Output

47ns Propagation Delay

Low Operating Voltage, 1.8V to 5.5V

Low Operating Current, 100uA (typical)

Rail-to-Rail Input/Output

Small 5-pin SOT-23 and SC-70 Packages

AEC-Q100 Grade 1
