## General Description

MD8085AH is a microprocessor chip that was manufactured by Intel Corporation. It is an 8-bit microprocessor that was first introduced in 1976 and was used in a wide range of applications such as computers, gaming consoles, and industrial control systems.

## Features

8-bit data bus and 16-bit address bus

Clock speed of up to 5 MHz

64 kilobytes of memory address space

78 instructions, including arithmetic, logical, and data transfer instructions

2 interrupt lines

Low power consumption

## Application

Personal computers and laptops

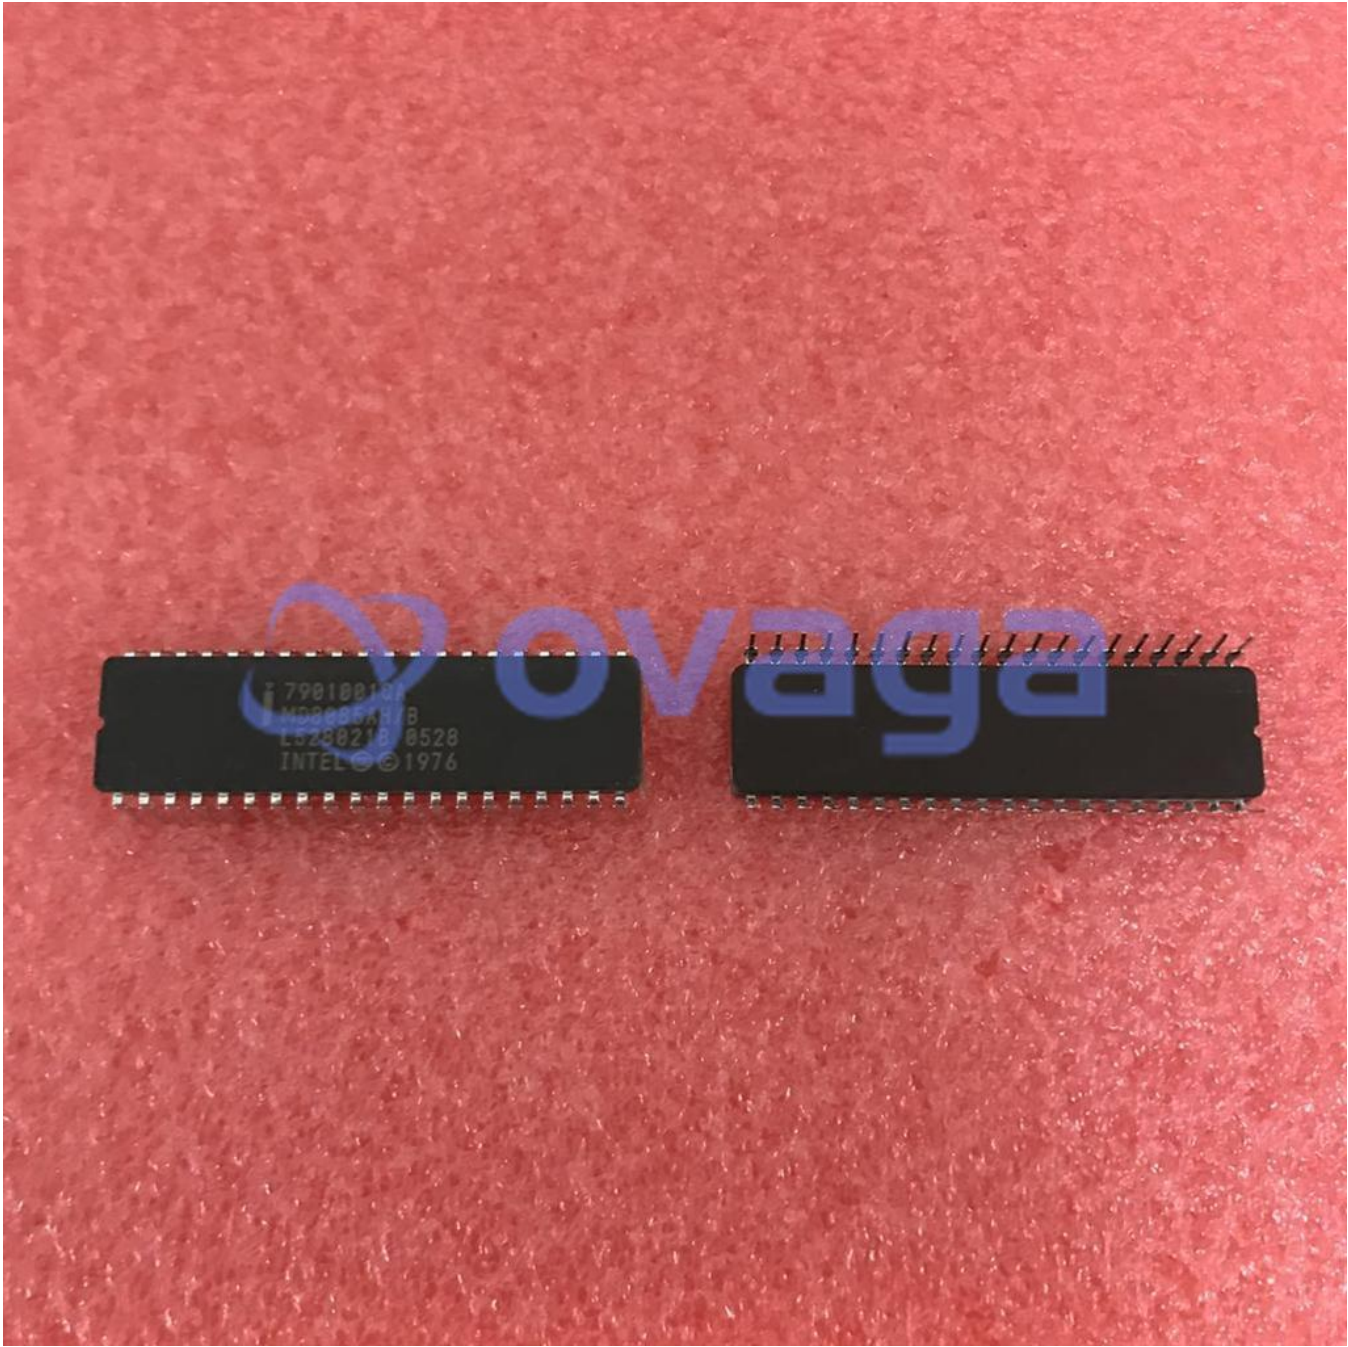

Gaming consoles

Industrial control systems

Electronic toys

Medical equipment

Automotive systems
