General Description

MAX14502AETL+ is a specific part number of a high-precision analog switch manufactured by Maxim Integrated.

Features

- Low on-resistance (RON) of 0.7Ω (typical) for improved power efficiency and reduced power loss
- Wide supply voltage range of 1.6V to 5.5V
- Low input and output leakage currents
- Fast switching times of less than 50ns
- ESD protection on all pins to prevent damage from electrostatic discharge

Application

- Battery-powered devices
- Portable instrumentation
- Audio and video signal routing
- Medical equipment
- Industrial automation
- Test and measurement equipment
