General Description

LXT971ALCA4 is a networking component manufactured by Intel. It is a 10/100 Ethernet physical layer (PHY) transceiver designed to provide reliable and high-speed data transmission over standard Ethernet networks.

Features

- Complies with IEEE 802.3 and 802.3u standards
- Supports auto-negotiation and auto-MDI/MDIX
- Can operate in both full and half-duplex modes
- Has integrated power-saving features
- Operates at temperatures ranging from 0°C to 70°C

Application

- Ethernet switches and hubs
- Network interface cards (NICs)
- Industrial control systems
- Security systems
- Home automation systems
