General Description

JS28F512M29EWH is a type of flash memory device manufactured by Intel. Here are some of its features:

Features

It has a capacity of 512 megabits (64 megabytes).

It uses a NOR flash memory architecture, which means it is well-suited for applications that require fast random access read times.

It operates at a voltage of 2.7 to 3.6 volts.

It has a page size of 2 kilobytes and a block size of 128 kilobytes.

It supports a variety of features, such as hardware and software data protection, block locking, and sector erase.

Application

Embedded systems

Set-top boxes

Networking equipment

Printers and imaging equipment

Industrial control systems
