General Description

The S29GL128P90TFCR10 is a high-performance parallel NOR Flash memory designed for a wide range of applications. It offers fast read and write operations, flexible erase capabilities, and high data retention.

Features

- 128Mb (16MB) capacity
- Parallel interface for communication
- Single 3.0V to 3.6V power supply
- Fast read and write operations
- Flexible erase capabilities (sector or chip erase)
- High data retention and endurance
- Advanced security features

Application

- Embedded systems
- Industrial control systems
- Consumer electronics
- Automotive applications
- Networking equipment
- IoT (Internet of Things) devices
