[RFQ](#)

General Description

Version 5.3 of the PEB/F 2091 (IEC-Q), is an optimized version of the IEC-Q, which features all functions needed for building basic rate digital subscriber line systems. It complies to all international and all important national standards (e.g. ITU, ANSI, ETSI, CNET, BT). The IEC-Q holds the Bellcore approval for "Layer 1 ISDN Basic Access Digital Subscriber Line Transceivers", including all objectives, and it is the de facto industrial standard for these applications.
